Dyka, mouldings of PVC – Indoor

Product description

Mouldings (bends, couplings and T-joints) of PVC, manufactured according to the standards EN 1329-1:2014+A1:2018 and TS 3216:2012.

Intended use

Fittings intended and used by joining sewage pipes indoor.

Systems intended for indoor use, manufactured according to the standards EN 1329-1:2014+A1:2018 and TS 3216:2012, in grey colour, and classified SN 4 and SN 8.

Scope

This approval comprises dimensions Ø 110-200 mm according to KOMO certificate K4126.

Approval

The products meet the requirements of Chapter 8, Section 4, of the “Planning and Building Act” (PBL) regarding the technical characteristics of construction works, protection in regard of hygiene, health and the environment, depending on, that what is stated in this approval is followed. The products are approved according to the following section(s) of Boverket's “Planning and Building Ordinance” (BBR):

Construction products with assessed properties	1:4
Installations for wastewater	6:641
Installations for storm water	6:642
Design	6:645

Associated documents

1. Product overview in KOMO certificate K4126

2. Installation instructions according to Dyka website: www.dyka.nl

Prior to marketing and installation in the Swedish market, installation instructions must be available in Swedish.

Marking

Marking shall be affixed to the product or, if there are special reasons, to the packaging or the delivery note. Marking shall indicate the following information:

Holder:	Dyka B.V.
Product name, and relevant article number:	Product name (article number)
Production site:	Dyka B.V., Steenwijk, the Netherlands
Date of production or other traceability to the manufacture:	yyyy-mm-dd
Information about requirements or class, if relevant:	-

Control

The production control is surveyed by an accredited Inspection Body.

Inspection Body: **Kiwa Sverige AB**

Control agreement: **918/19**

Production control shall be carried out in accordance with the instructions for control Kiwa-rule BRL 52100 bound to KOMO certificate K4126.

During inspection at the construction site, the building proprietor must verify the identity of the product by means of the marking. Furthermore, the building proprietor must ensure that the correct products are delivered and that they are installed in accordance with the manufacturer's instructions in the accompanying documents. It must also be verified that the product is accompanied by a manufacturer's declaration that certifies that production has been carried out in accordance with the documents that formed the basis for this type approval.

The validity of the Swedish Type Approval also implies that the production control is carried out according to agreement **918/19** and that the holder annually fulfils the requirement in "Boverket's regulations and general recommendations for type approval", BFS 2013:6, § 5 (TYP 7), on continuing production control. The holder shall report annually to Kiwa Certification, on e-mail address se.bygg@kiwa.com on December 15th the latest, on production control carried out.
